From there it was like she was a magnet for themBy Dana WhitneyIt was a gift for my partner who had collected comics 2 decades ago but had not necessarily done the research first. She just happened onto a lot of old one from the early 1900's and new she couldn't pass them buy. From there it was like she was a magnet for them, still not being as knowledgeable as she was about the other antique collectibles she sought

after. Now 2 decades later she had acquired so many that fill 6 business paper boxes packed smoothly and tight. So I got this as a gift so in her own time she can look up and at least learn the value of the ones she currently has, even if she never purchases any more. She was excited to get this!
