Narrow Coverage But A Good StartBy thirtdwinA good start but not wide enough in scope even when it was originally published in this edition of 2001 and a lot has happened since then and a lot of interesting things have been published before and since that this doesn't cover. You'll want to supplement this with other books if the topic really interests you- such as the bibliography volumes by John Lent for example.1 of 1 people found the following review helpful. I'm a Seqa Major so...By Phantom_Legacy_DollfaceI had to purchase the book. It's extremely informative and gives a great retelling of the history of comics. It has all the greats and the tough life comics has gone through. Recommend highly if you're interested in anything that has to do with American comic book.0 of 0 people found the following review helpful. Great book! Used for a class at UNCABY CustomerGreat
