I am not sure if it's publishing error or hers but there is no way Turmeric is a "fast"dye not to knock Turmeric :). I think the book has academic errors and that is not the best guide for folks who are buying it for recipes and information.4 of 4 people found the following review helpful. A Must Have for the Novice or the ExpertBy Pulie J.If I could have only 1 book for dyeing this would probably be it. It's format is easy to read, the spiral bound makes it convenient to leave open on your work space and the 'recipes' are simple and clear so that even the novice can jump in and enjoy the process. A great gift for yourself or the fiber lover in the family.10 of 10 people found the following review helpful. ExcellentBy J. GaenzleGreat book, for people who

grow their own natural dye plants. Great recipes showing light fastness and different colors available for each plant. You may want to order two, in case you use it so much you damage the first copy. More than worth the money!

Packed with photos, tips, and directions, "The Complete Natural Dyeing Guide" is like having an expert natural dyeing instructor right by your side. Features 89 different natural dye recipes, from plants in your garden to mail order dyes. Includes color photos of swatch material for every color formula, a handy "Dyes-by-Color Index" and "Resources" section to get you what you need, and a gallery of beautiful rugs created with these natural dye recipes.

About the Author Marie Sugar is a rug hooking and natural dyeing instructor who is currently vice president of the Mason-Dixon Chapter of the Association of Traditional Hooking Artists.
