Diana L. Thompson : Compound Christmas Ornaments: Easy-to-Make and Fun-to-Give Projects for the Holidays before purchasing it in order to gauge whether or not it would be worth my time, and all praised Compound Christmas Ornaments: Easy-to-Make and Fun-to-Give Projects for the Holidays:

3 of 3 people found the following review helpful. delicate resultsBy Kindle CustomerThe patterns are a bit of a challenge, but they are not hard to accomplish at all. The finished product is very delicate. Also, the glitter and plain paint used in the examples are cheesy. If you have a little imagination, the finished product can be very pretty if you paint them in a more artful style; or use exotic woods for natural beauty and don't paint them at all. Whatever you come up with, ditch the glitter, pretty please;-)the book is worth the price to have so many compound designs that will yield nice results for even a novice scroller, as long as you take care in cutting the ornaments. Did I mention they were delicate!!!!Nice resource to have. Try it out.1 of 1 people found the following review helpful. DO NOT OVER PAY

FOR THIS BOOK!By LarryDO NOT OVERPAY FOR THIS BOOK! The "revised" edition is th eexact same book, aviable for 14.95 from foxchapelpublishing.com. It is worth the 30 bucks I paid but you do not need to pay 80 to 400 for this book!0 of 0 people found the following review helpful. Great book. I recommend using carbon/tracing paper for the ...By JZKGreat book. I recommend using carbon/tracing paper for the patterns rather than cutting them out. Then make copies. Very nice looking ornaments once you get the hang of how to do it.

Start your holiday scrolling with the 57 festive projects in this book! Ornaments, nativity scene, tree topper, holiday centerpieces, snowmen candlestick holders, and much more!
