Ronald Pearsall : Connoisseur's Guide to Antique Glass (Connoisseur's Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Connoisseur's Guide to Antique Glass (Connoisseur's Guides):

0 of 0 people found the following review helpful. Great Reference BookBy M.BellishGood Illustration and Content.1 of 1 people found the following review helpful. You can do much better than thisBy LDIf a connoisseur is defined as someone who likes things because they are old (Roman times) or were used by common people then the title matches what is inside. The photos are large but one or two examples of a glass style does not show either the beauty of design nor the extravagance available to people with exotic tastes. Buy Sotheby's Concise Encyclopedia of Glass or Starting to Collect Antique Glass and you will be much happier. I own both of them and this book can only claim larger pictures.18 of 18 people found the following review helpful. Absolutely beautiful photos but....By A CustomerFor the

collector this is a book to dream with and display on your coffee table... for someone searching for information and ball park figures on Grandma's attic stuff this lacks both of those.

Both experienced collectors and beginners will find these guides useful in identifying antiques in many areas and determining their styles and periods. Whether your interest lies in glass objects dating back to antiquity or in examples from only a generation ago, this beautifully illustrated guide will help you to find and recognize desirable additions to your collection.
