**From Brand: Hearst : Country Living Crafting Frames at Home** before purchasing it in order to gage whether or not it would be worth my time, and all praised Country Living Crafting Frames at Home:

The 30 projects here present a range of styles, so whether youre showing off a traditional painting or a beloved black and white picture of you and your mom, youll find just the right frame. Start from scratch or revamp one thats purchased, and you can gild, paint, add mosaics, or more. Plus: display ideas.
