While this book had some good ideas and helpful hints it did not give any instruction on actual frame building techniques.

Make fabulous frames for just a fraction of what they cost in stores. The 30 projects here present a range of styles, so whether you're showing off a traditional painting or a beloved black and white picture of you and your mom, you'll find just the right frame. Start from scratch or revamp one that's purchased: directions take you from measuring to

mounting to hanging, and you can gild, paint, add mosaics, or more. Plus: display ideas.
