I wouldn't have bought it if I'd known how much sewing was in it.1 of 3 people found the following review helpful. crafts for dummiesBy KellyThis book allows you to 'get your feet wet' in crafting without having to spend a huge amount of money. It doesnt talk down to you or use a lot of jargon. All round I think its a pretty good beginners book.

Finally, a crafts book that doesn't require a Master's in Martha Stewart Living! Unlike many crafts guides, Crafts For Dummies is loaded with projects anyone can make. No prior knowledge of special techniques needed. And no need to turn the town upside down looking for an obscure crafts tool!
