for my upcoming wedding, with the hope of getting some ideas for my flowers and reception. This book offered no more than some Bridal Magazines I have been looking at over the last few months. Some of the ideas are more for general use like decorating a table for a party or doing some scrapbooking project. Don't waste your time and money on this book if you are really looking for some wedding ideas because you will be disappointed. 0 of 0 people found the following review helpful. Do it yourself ideas! By -t- This a great book with lots of DIY ideas, some easier than others! It's a good way to start imagining decorations and favors for the big day...

It's the small details and personal touches that make a wedding day truly special. In this book, Lucinda Ganderton and Sania Pell present twelve achievable projects, ranging from making a ring pillow and creating dainty lavender bag favours to crafting an exquisite wedding book so your guests can write a message for the bride and groom. The projects use easily available materials and can be accomplished by those with average craft skills. At the end of each, variations are suggested to allow you to personalize each item for your own special day. In addition, over 200 photographs provide hundreds of ideas for other ways to add a creative personal touch to all the wedding essentials-- beautiful flowers, elegant table decorations, candles, cakes, and much more. At the end of the book, a full source directory lists suppliers of all the materials you'll need for the projects. "Creating Your Perfect Wedding" is an invaluable resource, whether you are working to a tight budget or simply want to add some handcrafted touches to a wedding that's being professionally planned. This inspiring and beautiful book will ensure that you have the wedding of your dreams--a memorable, stylish, and truly personal celebration. Includes twelve stylish yet simple projects to personalize your wedding, beautifully and clearly illustrated with easy-to-follow, step-by-step photography.
