Donna Downey : Creative Albums (Step-By-Step) before purchasing it in order to gage whether or not it would be worth my time, and all praised Creative Albums (Step-By-Step):

Like the ideas!By Shannon H.I really like this book, it has some great, creative ideas in it for DIY journals/albums.HOWEVER, I made the mistake of buying this book, 2 others in the YES, IT'S A SCRAPBOOK series (Decorative Journals The Very Best of Yes, It's a Scrapbook). Don't waste your \$\$.

You could buy The Very Best of Yes, It's a Scrapbook have all 3 books in 1... There might be a couple of ideas you'd miss out on, but definitely not enough to justify buying all 3. Creative Albums Decorative Journals are almost identical books, w/ the pages in different order. I really can't believe they call this a series when they're pretty much all the same!

There are so many albums to choose from with complete step by step directions with supplies, materials and tools listed. I borrowed this book from a friend last night and read it cover to cover before bed. Choose from a CD album, tag album, bound paint chip album, CD tin album, gated album, blue jean album, coin envelope album, rolodex album, and shopping album. There are several more to choose from. Great step by step photos! A must for the out of the box scrapper! Enjoy!

What do an old cigar box, a stack of used CDs, and a bunch of shopping bags have in common? To author Donna Downey they are all scrapbooks--yes scrapbooks. In Creative Albums, her first book in the "Yes, It's a Scrapbook"

series, Donna shares 25 "out of the box" ways to capture your most meaningful memories. And best of all, you can finish most albums in an afternoon or over a weekend. Each project includes: clear, how-to instructions, step-by-step photos, full color photos of projects, and a complete list of supplies and tools needed.
