They're creepy but they're cute and cuddly, too! Inspired by classic literature, film, and folklore, these 17 crochet monsters will delight everyone with a taste for old-fashioned thrillers and modern tales of horror. Detailed instructions

include assembly diagrams for ease of construction along with full-color photos. The patterns are suitable for beginners, but advanced crocheters will find them irresistible as well. These fetching fiends include Boo Boo the Voodoo Doll; Jack, the Headless Horseman, and his horse, Nightmare; Dr. Jekyll and Mr. Hyde; Carl of the Dead and Daisy, his Zombie Dog; and other sinister characters. In addition to their value as handmade keepsake treasures, these characters also make great gifts for fans of horror and science fiction. "The moment I saw the Cthulhu on the cover of this, I knew I had to have it! And it did not disappoint!" -- Musing of Madjy "It doesn't matter what time of the year it is, if you crochet toys or dolls, this is the book for you. I can't wait to make my favorites." -- writeknit

This is a remarkably well thought out pattern book. Since I've been blogging about craft books in my Yarningseries, I've been able to get a handle on what makes a craft book actually usable and what doesn't, and this book has a number of features that set it apart as a book that you will actually USE to create the finished product.
