From Brand: Memory Makers : Cutting Edge Photo Cropping for Scrapbooks, Book 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Cutting Edge Photo Cropping for Scrapbooks, Book 2:

1 of 1 people found the following review helpful. Good Basic Scrapping Info at the time it was written. By LRMI
It seems to me that Photo Cropping was written for beginning scrappers, and was meant to provide new, but basic ideas for getting one's photos ready for entering into a scrapbook. It is clear and concise and easy to follow. 0 of 0 people found the following review helpful. Interesting ideas to branch out photos, as long as you're ready to print multiples and do a little minor kiosk photo editing. By M. Anderson
I really like looking through these pages and it took me viewing it twice in person to decide to pick it up. This book is really fun with new ideas if you're willing to get multiple and b/w and sepia prints as well as horizontal or vertical flips. I think I might be using some of these techniques with patterned paper in addition to photos. 0 of 0 people found the following review helpful. Good book By

dnajuchLove her books. Some good ideas
