For 2013 she has released "the classic edition" where each month's picture is a returning favorite from previous years. January's major motif is yellow roses, February has classic Valentine cut outs, March features traditional Easter flowers, bunnies and chicks, April brings tulips and accompanying Dutch girls, May celebrates swans and lovely ladies, June is full of blushing brides, July focuses on the garden with vegetables, flowers and seed packets, lovely objects and scenes from Japan characterize August, cats and sewing are the subjects of September, it's pumpkins and a traditional Halloween/harvest theme for October, the subject is fashion of long ago and the women who wore it for November and a gorgeous Santa and other favorite holiday symbols close out the year in December.I love these beautiful bright Victoriana calendars and though I might be a little disappointed not to see something entirely new for 2013 these classic choices are all very beautiful. As usual four postcards and a birthday book are included. I hope these charming calendars continue to be published for many years to come.0 of 0 people found the following review helpful. Gives me year round pleasure!By Linda JeanI've been buying this calendar for 10 years and continue to love it. The visuals are absolutely stunning and this graphic has become a standard decoration for me. Although Victoriana isn't currently so popular, the images are classic and never disappoint me. I will continue to buy it as long as she produces it. Gorgeous!This product is hard to locate in stores, so buying it from is a no-brainer.1 of 1 people found the following review helpful. DisappointingBy

Diane L Faulkner I have been purchasing this calendar set for over a decade. It included the wall calendar, daily planner, various post cards and a beautiful desktop calendar that showed the year at a glance. This year, without informing anyone, they no longer included the desktop calendar. This was one of the important reasons I have always purchased this calendar set. I am not only disappointed, I am angered by this. They should have made it clear that it was no longer included. To make matters worse, it has been impossible to find a desktop year-at-a-glance calendar anywhere. I schedule appointments so it is an important part of my day. Thumbs down to Cynthia Hart's Victorian 2013 Calendar.

The timeless trend of Victoriana, from its most impassioned and accomplished curator. Cynthia Hart celebrates over two decades of this best-loved calendar with her favorite collages from the past 24 years. Bursting with color, energy, and a sweet air of nostalgia, each scrapbook-style spread indulges the spirit and imagination and celebrates the enduring pleasures of hearth, home, love, motherhood, and holiday. Each month's seasonal composition layers rich fabrics and delicate laces, charming antique paper ephemera, vintage jewelry, and fresh flowers; the whole comes packaged in a beautifully decorated gift envelope with 4 postcards and a 24-page birthday book.
