From IDW Publishing : Danger Girl: Permission to Thrill Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Danger Girl: Permission to Thrill Coloring Book:

2 of 2 people found the following review helpful. I really love his illustration style By Jamie BI can't believe there isn't a review of this book yet! I have always been a J Scott Campbell fan. Ever since I saw designs for Gen13. I really love his illustration style. I read that book and his Danger Girl series. Both were awesome. Back to this book. It always seems like Mr. Campbell knows what his fans want. This book seems to cover all the issues that past coloring books have. 1. The pages are perforated. 2. Decent paper. Not the greatest, but it is definitely better than the terrible paper in the Zenescope books. (Which also have some of his work in them.) 3. The front of the pages have large, page-filling designs, while the backs have small, rectangle-confined designs. Which caters to people who don't like two-sided pages and those that do. 4. Spoiler alert! There is a 2.75 fold out design in the back. And it is fantastic! 5. This book has a mix of designs with varying detail. Which is great if you don't feel like doing really intricate pieces all the time. 6.

This book doesn't have any of those stupid filler design pages like Zenescope has been throwing in their books. Every page is an illustration from the comic book. Even the small designs on the back of the pages are actual illustrations. So, this book is the perfect package. And it has a deserving price. 1 of 1 people found the following review helpful. Good art, bad paper. By Cmerksmirk The art in this book is amazing. But it has fairly poor quality paper and it is printed double sided. Poor paper quality and double sided prints mean either you're photocopying - and then coloring on copier paper (ugh) OR you're ruining half the book (double ugh) 0 of 0 people found the following review helpful. Love the original art By Jerret Zwicker It's ok. Love the original art.

Sultry. Sexy. And stripped of color! The luscious artwork of J. Scott Campbell is unmistakable and often imitated - and now it's yours to color in this collection of artwork from the comic book series Danger Girl. From thrilling scenes to chilling curves, Permission to Thrill brings the best of the comics medium to the world of coloring books! "Price Includes VAT"
