You think "how is this going to possibly look like this person", and before to long you're blowing your own mind. Great way to relax for adults, but also 15 year old me would have been so psyched to do that Hendrix pic (ok I still am, but wish this existed back then). Would make a great gift for anyone who likes to draw or color and needs to chill out. Adults, teenagers, and toddlers with highly advanced motor skills who may or may not be mutants will love this book.7 of 7 people found the following review helpful. Very fun and looks greatBy TickleberriesYou fill the little parts in and the pictures come out so beautifully. It takes

time but lots of fun. It a bigger sized book than I thought. For fun, you might frame your favorites. I wish they'd come out with fantasy pictures or animals. That would be great!0 of 0 people found the following review helpful. Amazing Coloring Book With A TwistBy Stacey H.This coloring book is so much fun! Starting to color in the spaces (mostly circles of varying sizes), which are indicated by numbers 1 through 5 and seeing a face emerge is part of what makes it so fun. You can either use five varying shades of one color, or five different colors, as long as you have enough difference between light and dark. It's the light and dark contrast that help the faces come to life.This book contains 21 pictures to color, which includes one large 19"x14" poster, each of which is an "icon" such as Marilyn Monroe, Abraham Lincoln, Elvis Presley, etc. For most of the pictures, you won't be able to tell who it is when you first start coloring. You will be well into the coloring process before you can guess who it is.Each picture takes quite a long time to color, as there are a lot of spaces to fill in. But this book is different from most adult coloring books, and different from most color-by-number coloring books, too. This is a unique experience and I feel like I am creating a masterpiece each time I color one of these gorgeous pictures. I recommend this highly and plan to buy the other versions, including Animals, Masterpieces and Cats.The paper these pictures are printed on is heavier and is good quality. The book is glue-bound and the pages are perforated on the side so you can take them out easily if you would like to either work on them outside of the book or frame them once you complete them.

Sensational, quirky coloring puzzles from the best-selling author of the 1000 Dot-to-Dot series! Reveal famous faces within the circles using pencils, paints, markers, or any coloring medium you choose. Twenty portraits of eminent icons including John Lennon, James Dean, Princess Diana, Marilyn Monroe, Nelson Mandela, and more can be removed and displayed. Monochrome or multicolored, the concept is as easy as a child's book, but the results are nothing short of astounding!
