I am forever having to size down blocks or make less rows to get the quilts down to a smaller size. This book does all the work for me. I make lots of these size quilts for children's charities so was so elated to find this book. Every level of quilter will love this book, but especially beginner quilters. Each quilt is easy to make, rotary cut instructions that are easy to follow, and should be fairly quick depending on your skill level. Out of about a dozen quilts in this book there are only about two that I probably won't make, and that is just because of my personal taste in quilt designs. I bought this book for a specific sampler quilt that was in it, was wonderfully surprised to find so much more in the book. Plan and purchase bright juvenile fabrics or just use up your scraps. Add some blocks to make any of the quilts larger and excellent for a throw (or any size).If you make quilts for children's charities

(Linus, Quilts for Kids) this is the only book you will ever have to have. If you have children or there are children in your family or circle of friends any one of these would be truly loved by that child. I highly recommend this book, giving it 5 stars (I rarely rate any product that high). It is going on my reference shelf where I can get to it easily. 5 of 5 people found the following review helpful. WORTH CAUSE AND BEAUTIFUL QUILTS By Marigrah60 This book just has some really cute patterns for children's quilts. I am so glad I bought it and the writer that made the quilts used them for a wonderful purpose. These quilts were made for sick kids, kids who were indigent, and were delivered to kids in disasters. A great cause and beautiful quilts. 12 of 12 people found the following review helpful. Great for Grandbaby Quilts! By Texas Rae Great book and simple patterns. I am going to use one for making my 2nd GRANDBABY quilt! The first one I made I had to make all the measurement changes on my own. These patterns are great for beginning quilters like myself!

Fun and whimsical, warm and cuddly, or sweet as can be, there is a design in this book that will fit the personality of a special child. The 12 different designs for both boys and girls are featured in full color and are quick and easy to create. Modern, readily available, themed fabric makes these designs stand out against typical pastel-colored children's quilts. Sized just right for children's beds, cribs, or a favorite rocking chair, the patterns include Critters Crawlers, Baby Blocks, Leapin 9-Patch, and Call of the Wild. Easy, step-by-step instructions lead both beginner and experienced sewers through the entire quilt-making process with tips and secrets to finishing each quilt like a pro.

Make quilts for kids from a gift for a newborn to toddlers. These designs can be made in a day. The sampler quilt is a beginner's project using many of the blocks in the book in one design. You could just as easily keep repeating certain blocks or add more blocks that you know to vary the design. Baby Blocks is an even simpler beginner's quilt, Bugs is similar and Baby Bricks is simple enough and very effective. Here's My Heart is classed as beginner's but with its two blocks plus borders, I thought that this one was moving up to an intermediate skill level. Both this, Nine-Patch and Critters use triangles. Chevron is another I thought would be better classed as intermediate. It is probably my favourite quilt in the book, but also seems aimed at a much older teenager, if not adult. Check This, and Let's Go are two more beginner's quilts. Call of the Wild is based on strip blocks alternating with squares. Around The Block is also an effective way of using up strips. The instructions are clear, with great photos of the finished quilts and step-by-step line drawings of construction. Great ideas, adaptable designs and lots of fun. yarnsandfabrics.co.uk September/October 2014 You will be inspired when you see the variety of designs and fabrics you can combine to make irresistible children's quilts. Fun and whimsical, warm and cuddly, or sweet as can be, there is a design in this book that will fit the personality of your child or grandchild to the tee. Make a quilt for each child, or create just for the joy of giving to your favourite fund-raising charity. Either way, both you and the children will have an everlasting memory of the wonderful quilt you created. Children will love the quilts made from this book. Whimsical themed fabrics with animals, race cars, bugs and colourful shapes will intrigue and delight each child who receives the quilt. Sized just right for child's beds, cribs and your favourite rocking chair, you will see the happiness in their eyes when you wrap them up in these special quilts. Written for both beginner and experienced quilters, the book features full colour photos, step-by-step instructions and drawing that will guide you through each step of the quilting process. **Workbox** About the Author Connie Ewbank teaches and designs patterns for both quilting and cross-stitch and is the author of *String Quilting Today*.
