Turns out I had already figured out two of the kinds of "Quilt as you go" but I enjoyed the patterns and already plan to make two of them.0 of 0 people found the following review helpful. Five StarsBy Jeannie Reevesnice quilting book3 of 3 people found the following review helpful. Misleading TitleBy MizAprilThe name of this book misleads you. It only explains how to quilt as you for the featured patterns. However, I do like the patterns.

Demonstrating how to conquer the quilting process one block at a time, this quilting companion offers readers five

new techniques that they can incorporate into their day-to-day quilting. Eleven patterns from multiple designers are featured, offering readers a diverse selection of projects that they can tackle as they learn to build a quilt one piece at a time.
