I don't know if the company or the post office folded it in half but it looks like crap. Otherwise it is a great book, shows how different quilting techniques on the same quilt makes the quilt look completely different. 0 of 0 people found the following review helpful. Four Stars By Kathleen Rumbaugh interesting 24 of 24 people found the following review helpful. Wonderful ideas for machine quilting By Amy I absolutely love this quilting book. I find it hard sometimes to think of different ways to quilt designs on my quilt. I want something unique and this book offers that. I found the pictures wonderful and unlike the first person to review this book (who must have been having an awful day- LOL), I found the quilting to be of good quality and the stitches can be seen very nicely. You do have to

have an open mind to find this book useful- if you only want the same old standard quilting patterns and ideas, then this book is too interesting for you. Enjoy!

Rear cover notes: "...Wouldn't it be wonderful to be able to 'tryon' quilting designs? Well, now you can! Lee Cleland, one of Australia's most popular quilting instructors, shows you how in this authoritative guide to selecting the perfect quilting pattern for your quilt....Lee's unique approach to choosing a quilting pattern is perfect if you have trouble visualizing how different designs might look on your quilt top. You'll see 12 traditional quilt patterns, each pieced five times using the same fabrics and then quilted using five different designs....You're minutes away from taking your first stitch with these pullout patterns for 11 of the more unusual quilting designs....Detailed instructions for making your quilting designs fit your quilt top are at your fingertips, along with information on how to assemble your quilt, prepare it for quilting and finish it....All the information you need to make each of the 12 beautiful quilts is right here! Many of these traditional designs are rotary cut and speed pieced; a few require templates. All of these quilts are perfect for beginning quilters."
