Kim Schaefer : Quilts, Bibs, Blankies...Oh My!: Create Your Own Cute Cuddly Nursery before purchasing it in order to gage whether or not it would be worth my time, and all praised Quilts, Bibs, Blankies...Oh My!: Create Your Own Cute Cuddly Nursery:

3 of 3 people found the following review helpful. Totally recommend if you need to make a baby shower gift!!!By arsLove the book. There are about 5 or 6 themes. I like all of them except one and I think if it was in a different color scheme I wouldn't mind it. The applique's are large pieces so they're easy to do even for a beginner like me. I'm working on the sheep growth chart and this is only the second time I've appliqued and I'm having no trouble with it. I looked all over trying to find cute patterns for growth charts and the two in this book are adorable and just what I was looking for (you can see them on the front and back cover). I also bought her quilt book that is flower themed (I don't

remember exactly which one). I like that book too but not as much as this one. 4 of 4 people found the following review helpful. Cute designs - though not a lot of them
By C. Marshall
This is a really cute book. I love almost all the designs, and the fact that each "set" comes with a crib quilt design and then options for bibs, growth charts, decorative pillows, security blankies, or whatever. I haven't tried any of the projects yet, so I can't rate how well they work out. The only drawback is that I had kind of hoped, I think, for more pages and more projects. I believe other reviewers mentioned that there are just a few "themes" overall - I would have liked more themes! That said, though, these are cute and I can definitely use this book!

By Grace Y. Chui
It is nice, but slow to ship

Make something cuddly from these 6 adorable collections of nursery accessories. Great gifts for boys or girls.
