My mother-in-law made our family quilts until she passed away. My quilts are now becoming worn and I need to make new ones. I love traditional patchwork and this book has many of them. I am looking forward to using them in the future.0 of 0 people found the following review helpful. Wasn't the Right BookBy Dixie SuttonI was looking for a book by the same name that was suppose to have a certain pattern in it. This is not it. May find something sometime t make in it. Just be careful with books with similar names.0 of 0 people found the following review helpful. Five StarsBy Julia ClarkReally great ideas!

This quilting book is themed around the changing seasons. Combining time-tested favourites and original designs,

the book includes 32 quilts and eight other projects. The book uses a workshop approach to quilting.
