**Jaynette Huff : Quilts from Grandmother's Garden** before purchasing it in order to gage whether or not it would be worth my time, and all praised Quilts from Grandmother's Garden:

6 of 6 people found the following review helpful. Another Wonderful Book on English Paper Piecing. By Budding Blogger Yet another wonderful book of ideas to use with English Paper Piecing hexagons. As other reviewers said the patterns are formini hexagons. If you want to make the patters larger just increase the size of the hexagons. She has some great ideas for using parts of the hexagons to create other shapes like butterflies. Another great book on English Paper Piecing. I gave this a four because the patterns are limited to the hexagon shapes. The New English Paper Piecing: A Faster Approach to a Traditional Favorite is a more modern use of this technique and includes other shapes besides the hexagon and that it is why I gave it a five. Both books are a wonderful addition to your Applique Library. 0 of 0 people found the following review helpful. Nicely written book with good pictures. By Dawn White Nicely written book with good pictures. I am going to enjoy making the cover quilt! 0 of 0 people found the following review helpful.

A great source for small projects By 330dolly This is a lovely book, can't wait to make these..now, which one

A little handwork--and a few quick tricks--is all it takes to create these striking quilts inspired by old-fashioned Grandmother's Flower Garden quilts. Instead of sewing together thousands of tiny hexagons, make applique units instead! Start with one learning place-mat project; then get creative with ten quilt patterns Take these perfectly portable projects wherever you go; applique units make it easy Learn how today's inexpensive precut papers make the process a breeze--no need to draw and cut hexagons

Quilts from Grandmother's Garden: A Fresh Look at English Paper Piecing provides a fine set of projects inspired by the Grandmother's Flower Garden quilt tradition, teaching how to sew hexagons into applique units for lovely floral designs. Ten projects include a wall quilt and numerous flowers, leaves and nature scenes that can all be created using 1/4" to 1/2" hexagon shapes. Patterns and color photos throughout lend to a lovely gathering of unique projects based on an old tradition, and perfect for quilters seeking something different. --The Bookwatch, October 2012 This is the second book in these review pages by the author Jaynette Huff, but this time the emphasis is solely on English paper piecing, almost a dying art, but revived in a fresh manner in this publication. With a little handwork, a few quick tricks and today's modern equipment; you can create flowers, leaves, baskets, butterflies and more by using quarter to half inch hexagon shapes. There are ten small projects ranging in size and measuring up to 45" square, so there is still time to make that small friendship gift for that special person in time for Christmas. --Fabrications Quilting For You, December 2012/January 2013 From the Inside Flap A little handwork--and a few quick tricks--is all it takes to create these striking quilts inspired by old-fashioned Grandmother's Flower Garden quilts. Instead of sewing together thousands of tiny hexagons, make applique units instead! About the Author Former quilt-shop owner Jaynette Huff has won several awards for her work, which has been featured in numerous books and national quilting magazines. She is a member of several wonderful quilt guilds, and she especially enjoys the friendship and care that develops among members of smaller, more intimate groups formed around particular quilt types, techniques, and interests. Jaynette lives in Conway, Arkansas, with her husband, Larry, and their cat and dog, Inky and Buddy.
