I didn't read it all carefully so it was smaller than I expected, but it is very cute and she just has to put in the pictures she wants to. Which is good cause I don't think she would take the time to decorate it all up. Some pages only have room for 1 photo or you will cover up the design however, you could cut pictures smaller and make a collage on a page. As someone who doesn't like to spend a ton of money of each page for all the little details to decorate it, I was happy to find this and recommend it. 0 of 1 people found the following review helpful. Beautiful Book By Tanya Got this for our dear Ridgeback gal who passed away and made a beautiful memory book of her. The predecorated pages made it so easy. 1 of 1 people found the following review helpful. I wish I could scrapbook By J. Whalen If you're like me and you don't have the least bit of talent when it comes to scrapbooking, this is the book for you! It's a read made scrapbook, with 3-dimensional pages that really are handcrafted! All one needs to do is drop in their own photographs. My two labs have never looked better than in the pages of Ruff: A Dog's Life

Its a dogs lifes capture every moment, from puppyhood to full-grown tail-wagger, in this cute scrapbook. A tip-on dog tag on the cover makes it clear just whose album this is, and inside the charming layouts feature puppy love and GOOD DOG charms, a mans best friend headline, paw prints large and small, and huge WOOF lettering, plus ribbons, buttons, and other decorative elements. Its pawsitively wonderful.
