It's okay.. different ideas By Kindle Customer This book is okay. I have several of this type. It is what I call a reference for me book. When I am stuck trying to think of a theme or a different type of layout for my pictures, I go to this type of book. It has some nice layouts, most which would be very time consuming to make. If your looking for different ideas and hours to create a page this is the type of book for you. Some layouts cover two pages and looks like more work, but it depends on how dedicated you are to scrapbooking. If you want new ideas and have plenty of time to work on a layout then you will enjoy this book. 9 of 9 people found the following review helpful. Full of Great Ideas! By A Customer This is a beautiful book! I'm still fairly new to scrapbooking, and this book has given me some great ideas! Some of the projects are out of my ability at this point, but what possibilities!!!

With this complete how-to guide and kit, births, weddings, vacations, and everyday life can be preserved in albums as original as the experiences themselves. The book includes more than 100 full-color photos of scrapbooking pages created by scrapbookers all across the country; and 20 how-to photos illustrating detailed directions for selecting a theme, organizing material, choosing and cropping photos, and arranging items attractively on the page. The kit

includes paper, templates, rulers, and cropping tools to help turn the directions into reality.
