Sprague I bought this book because it was really cheap. I'm glad it was, I was hoping for more ideas. Some might like it but it fell short of my expectations. 7 of 9 people found the following review helpful. It's not a COOKBOOK w/scrapbooking materials By Kristin M. Scott It may be just me, but I thought

this was an actual cookbook that came w/scapbooking materials for my family recipes. I re-read 's description after I'd received the book, and still I find their description not clear. This is strictly a "how to" of scrapbooking your recipes - no cookbook or scrapbooking materials included. BUT I rated this book based on it's purpose. If you're already into scrapbooking, you're probably able to come up w/your own ideas w/out the help of this book - there isn't anything spectacular.

Creating scrapbook memories of cherished family food traditions is easy with this complete guide to selecting papers, laying out pages, and scrapbooking basicsVibrant full-color photography inspires scrapbookers to preserve precious memories from classic cooking moments, as well as capture new cooking memories.
