Hillary DePiano : The She-Ra Collector's Inventory: An Unofficial Illustrated Guide to All Princess of Power Toys and Accessories (Includes Price Guide) before purchasing it in order to gauge whether or not it would be worth

my time, and all praised *The She-Ra Collector's Inventory: An Unofficial Illustrated Guide to All Princess of Power Toys and Accessories (Includes Price Guide)*:

3 of 3 people found the following review helpful. This book has the POWERBy A. T. GoddardThis 57 page paperback edition of She-ra toys is well worth the pricey tag that comes along with it-- at first i was disappointed with the amount of pages for a \$30dollar book- BUT almost every single page is colored-and there are excellent pictures of every She-ra MOTU character including crystal castle and the extra outfits and comic books.Each of the characters has a page dedicated to them- in color- and a SMALL description of each; including what makes them more valuable and variations between year releases. Then there is a box to the right of the picture with a average price for a NIP (new in package), complete (with accessories etc), and loose (the figurine without all clothes/swords/etc). At the end of the book is one page dedicated to the Horde characters (minus Cat-ra Entrapta who each had their own page). There are not prices for the Horde characters.Some of the action figures are missing their accesories in the pictures but overall they are complete- a couple of them shown are NIP as well.DePino also provides a concise introduction worthy of a standing ovation. I loved this guide and read it from front to back. I would recommedned the book to She-ra collectors as well as Children/Teens of the 80s who had anything to do with these characters- a nice item to have and read.1 of 1 people found the following review helpful. This is going to help me with my She-ra collectionBy Sarah CrowtherI recently became a She-ra fan (became a fan in January of this year) and this guide is going to help me. I already have some of the action figures (She-ra, Frosta, Bow, Glimmer, Scratchin' Sound Catra, Hordak, Grizzlor, and Leech) and this guide will help me with getting the accessories and comics for it. Plus they give you a guide on how much everything is worth.Though the only reason why I gave this 4 out of 5 is because 1. It didn't give you any directions on how to take care of them (like if you bought someone like Perfuma and she had ratty hair) and 2. If would have been cooler if they had other merchandise and how much they're worth (toothbrush holder, costume, radio, etc.)0 of 0 people found the following review helpful. Very informative!By CatbooThis book has everything you wanted to know about the She-Ra Princess of Power line. It has lots of colorful pictures as well. The descriptions are very detailed about the item, and they also list the different variations to each item, if there is one. They not only list the action figures, but the outfits, accessories, and unproduced lines. The book is not thick though, only 55 pages, but is enough to be very thorough. Well worth the money if you love the Princess of Power line.

The She-Ra Collector's Inventory is an illustrated guide to the world of Princess of Power collecting. With detailed information about all action figures, playsets, weapons, accessories, variations, Mini Comics, and Fantastic Fashions, this guide is not only the most complete encyclopedia to date of every She-Ra toy ever made, but is also a visual stroll down memory lane with hundreds of large, full color pictures of many of the most beloved toys of the 1980s. With easy to read accessory lists and check boxes to help the collector keep track of what items you already have and which ones you still need to track down, there is also a price guide provided to help the savvy collector estimate the value of your collection. Whether you are a devoted toy collector, a seller who wants to know how to price and identify Masters of the Universe items for sale or just someone looking to remember the toys of their youth, The She-Ra Collector's Inventory is sure bring you back to Etheria and the world of She-Ra.

"One of the more useful guides we have in our library. . ." -- Funk JunkAbout the AuthorHillary DePiano has been selling on eBay and other auction sites since 1997. An avid collector of Muppet memorabilia, My Little Pony, She-Ra, and other 80's toys, she soon found how profitable selling on eBay could be and has enjoyed a career as both a Trading Assistant and PowerSeller. On weekends, Ms. DePiano can be found scouring flea markets across the tri-state area (not to mention her attic) for deals and treasures to sell on eBay. In addition to her books about eBay which include *The Seller Ledger*, *The Trading Assistant's Assistant* and *eBay Shipping Secrets*, she is also the author of the play *The Love of Three Oranges*, and the collectibles guides *The My Little Pony Collector's Inventory*, and *The She-Ra Collector's Inventory* . Ms. DePiano currently resides in New Jersey.
