**Michael Arthur Bucko : Time traveler's notebook** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Time traveler's notebook:

Unique mathematical art from a mathematical prodigy who discusses the theory of numbers, cosmology and particle physics. Time traveler's notebook contains the original photos of the notebook.

About the Author Michael Arthur Bucko is the author of Odes (series). He teaches machines about intelligence and investigates the secrets of the universe. For more, please refer to :
