Dennis David : Tonka before purchasing it in order to gauge whether or not it would be worth my time, and all praised Tonka:

0 of 0 people found the following review helpful. Five Stars By ken glover Very nice as advertized, Thank you 0 of 0 people found the following review helpful. Tonka By cap_flyer A book of great memories that was put together. I worked @ Tonka in Mound in the 70's with Lloyd. 0 of 0 people found the following review helpful. Tonka Trucks By D. Ruhl Authors could have included more pictures of the various models I can remember so many more models that are not in this book Book is a nice book to have though

Relive your childhood memories with this spectacular tome of Tonka history. On the shores of Lake Minnetonka in Minneapolis, three men created Mound Metalcraft in an old schoolhouse in the late 1940s and set out to make tie racks and garden utensils. Sales weren't as abundant as expected, so the group decided to produce sturdy construction toys crafted from the leftover materials. Tonka - named after the nearby lake - was born and the company changed the face of the toy industry forever. Tonka takes you through the early days of the company, to its purchase by Hasbro in 1991. Through the years, there were many ups and downs, but a few things remained constant: the rugged quality, realism, and durability of the toys. The employees were an integral part of the company, and profiles of a handful of former employees help bring a personal level to the story of the company that drove its way to the top of the toy truck industry. Each epoch of Tonka history is covered and accompanied by 150 color and 25 archival images. The Tonka

story itself is one of an incredible journey. From the humble confines of a small schoolhouse, to a giant corporation that sold toys everywhere, Tonka remains a household word for strength and durability and is synonymous with toys that could withstand anything a child could do with them.>Author bio:Dennis David is an automobile journalist and writes for many antique car enthusiast magazines. He collects antique automobiles, is a member of the Society of Automotive Historians, is the technical editor for the National DeSoto Club, and is an automobile appraiser. This is his third book. David lives in northwestern Connecticut with his wife, Susan, and son, Christopher.Lloyd Laumann worked at Tonka for almost 30 years. He held various positions from August 1955 through September 1984, and the last position he held was vice president of manufacturing. He retired in 1984 and has been collecting Tonka memorabilia ever since. Laumann has been writing articles for collector magazines since 1987 and currently lives in Waconia, Minnesota, with his wife, Jean.

About the AuthorDennis is not new to automotive writing - besides authoring *Fifties Fins*, *How to Restore Classic Toys*, and *History of the Tonka Toy Company*, his work has appeared in *Car Collector*, *Cars Parts*, *Special Interest Autos*, and *Automobile Quarterly*. He's been involved in the Society of Automotive Historians, American Truck Historical Society, Classic Car Club of America, Antique Automobile Club of America, amongst being involved with esteemed events like judging for the Greenwich Concours de Elegance and the Councours de Elegance of the Eastern United States. To further prove his candidacy for this subject, Dennis was the winner of the 1998 Hernando DeSoto Award and was also the Technical Editor of the National DeSoto club.
