As an aspiring artist, I found the pictures to be very inspirational.4 of 4 people found the following review helpful. Stunning reminder of a golden age of travelBy ChappsIt doesn't get any better than this. These posters were all produced to create an emotional response in the viewer - and they clearly still have that power. Many of these images make you want to step into the scenes they portray, back into a time before WWII, or just after that great war when women all looked like Sophia Loren or Gina Lollabrigida (or strived to), and all the men looked like Rossano Brazzi. The romance of the lake district, of the Amalfi Coast, of the ruins in Rome ... all surprisingly free of people, just waiting for you to enjoy. As a designer, these posters really get my creative juices flowing. The curves, the blocks of color, the bold vertical lines - some art deco

examples make you want to cry, they're so good. And all very Italian.0 of 0 people found the following review helpful.
