Mary Engelbreit version--awesome!By Julie GI'm reviewing the book illustrated by Mary Engelbreit (since these reviews are clumped together with the different versions of The Night Before Christmas). It is a beautiful book! Mary does not disappoint with her illustrations. The poem is unaltered, as well. I'm sure my family will have many years of fun reading this one!3 of 3 people found the following review helpful. This version will be a cherished prize for anyone who enjoyed it in the last century and would want to ...By Susan DunhamI had the Golden Book version when I was a child in the 1950's and bought this same book for my children in the 1980's. I was thrilled, therefore, to find this same book for my first grandchild this past Christmas. This version will be a cherished prize for anyone who enjoyed it in the last century and would want to share it with a grandchild in this one.12 of 12 people found the following review helpful. Magical wonders await readersBy Learning for LifeI have a 4 year old who loves to read and I was very excited imagining how his eyes would light up when he opened the book for the first time. Also, as I have no copy of this book and still enjoy reliving my childhood memories, I was excited about seeing the magical pictures that so many reviewers raved about.Initially, I felt worried

because the full-page colour illustrations had a sort of old watercolour feel to them that I thought would disappoint my son. I wanted bolder colours and better definition, and I kept squinting to try to discern more detail. The book actually turned out to be a real wonderland of thrills for him, as he was able to discern nametags on the reindeer, and would scream out the names as he read them, and match their names to Santa's chant of "On Dasher, On Dancer,..." etc. Also, the book is hardcover so it will last a long time, the print is large and easy to read which makes it well suited to young ones who want to read on their own or along with an adult. I have revised my rating of this book to reflect how pleased I am, because my son transported me to a happy, magical place every night leading up to Christmas with his reading of this lovely book.
