before purchasing it in order to gage whether or not it would be worth my time, and all praised Ulster Museum: Belfast Part 2: Hiberno-Norse Coins (Sylloge of Coins of the British Isles):

This volume catalogs the Guterbock and Raby ancient coin collections of the Manchester University Museum. In 1916 Alfred Guterbock gave the Museum 448 Greek coins, and in 1957 Harold Raby added more than 1,000 fine coins, which he had carefully chosen to complement the Guterbock coins and establish an extensive collection representing the major Greek series. Particularly well represented are the mints of Tarentum, Thurium, Syracuse, Alexander III, Corinth, Athens, the Achaean League, and the Ptolemies.
